Serial No.: 10/033,302 Group Art Unit: 3739

Atty. Docket No.: 105159-19

## REMARKS

This Supplementary Amendment is being filed following the filing of a Response to the Final Office Action and Request for Continued Examination (RCE) on January 6, 2005.

In the Specification, Tables 1, 2, and 3 have been added following paragraph [0037] on pages 11 of the specification pursuant to 37 C.F.R. § 1.58(a). The three Tables were originally filed, together with the original application, on December 27, 2001 as indicated on the Utility Patent Application Transmittal form (enclosed). However, the Tables appear to have been saved on the Patent and Trademark Office electronic system as a "Miscellaneous Incoming Letter" and were not included with the publication of this application as published on October 31, 2002 as Publication No. US 2002/0161357 A1. Accordingly, no new matter is added.

## **CONCLUSION**

Applicants respectfully request entry of the Amendments to the Specification. The Examiner is urged to telephone the undersigned in the event that such communication is deemed to expedite prosecution of this matter.

Respectfully submitted,

NUTTER McCLENNEN & FISH LLP
